

## QUESTIONNAIRE

The area of Ravne na Koroškem has recently accelerated investments in infrastructure and (sustainable) development. The municipality is aware that in this respect, next to the development of transport connectivity it needs to care of the preservation of pristine natural and cultural heritage of the surrounding farms, which have high added value and represent an integral part of the sustainable development of village Strojna.

Municipality of Ravne na Koroškem successfully applied to the call of proposal of Swiss Contribution last year. The goal of this project is to create a sustainable development strategy of village Strojna. We are starting with the implementation of project activities in April 2012. We have prepared some questions for you; answers will be crucial in further implementing steps of the project.

Residents of Strojna are playing important role in development of the village. Therefore, we hope that with your help Strojna village will experience better times in discovering, developing and using existing potentials.
